

### REMARKS

The Examiner's attention to the present application is noted with appreciation.

No new matter is added in this preliminary amendment. The paragraph of the specification which started at page 4, line 11, has been amended to remove reference to the now canceled claim 12 by referring instead to the descriptive drawing of Figure 3 which substantially depicts the elements of that claim graphically. The remaining portion of the specification has been amended to remove reference to the original individual claim numbers by adding the text of those claims in places thereof.

Original claims 1-26 have been canceled and newly added claims 27-75 have been added in place thereof to better describe applicant's invention.

Entry of this amendment is respectfully requested.

If any issues remain, or if the Examiner believes that prosecution of this application might be expedited by discussion of the issues, the Examiner is cordially invited to telephone the undersigned attorney for Applicant at the telephone number listed below.

A check for additional claim fees is attached. Authorization is given to charge payment of any additional fees required, or credit any overpayment, to Deposit Acct. 13-4213. A duplicate of this paper is enclosed for accounting purposes.

Respectfully submitted,
